Barista Basics

If you think making a cup of coffee involves mixing a teaspoon of instant granules with milk and sugar, think again!

The Barista Course will teach you the basics of what you need to know to use a commercial espresso machine to make the perfect cup of coffee.

Be it a cappuccino, a latte, flat white or maybe even something a little more contemporary like a macchiato, all coffees start from an espresso shot.

In order to successfully undertake the course candidates need to possess English language and literacy competence that will enable them to provide clear information, ask questions, listen to and understand instructions and communicate effectively with others.

Course includes:

- Operate coffee machines
- Use and set the coffee grinder
- Clean and maintain the coffee machine
- Tamping correctly
- Using fresh coffee beans and the benefits
- Using the correct milk texturing techniques
